14. Through reading women would become more educated ?
15. The second stage of learning was based on the sense of smell.

SECTION B

● **Read the stanza and answer the questions :** **3**

My darling daughter,

In her ecstasy,

Is busy drawing

Strange pictures

But when the school master

Gives her homework,

My darling doll

Breaks, the tip of the pencil

Is extinguished.

Only the smoke remains

On the sky of the white paper

16. When does the girl get angry ?

17. What does the girl do when she is angry ?

18. Which word in the poem means 'odd' ?

● **Read the paragraph and answer the questions :** **5**

The queen bee is nearly 2.5 times longer and 2.8 times heavier than a worker bee. Her function is reproduction. She lays 1000 to 2000 fertilized eggs every day. Some of the eggs will develop into worker bees or into queens. But this depends on the size of the wax cell in which eggs are laid and on the type of food given to the larvae. The queen also lays unfertilized eggs from which only drones develop. The bees can not live long without a queen. So when the queens dies, the bees choose some three day-old eggs and hatch them from that pearl-like egg a larva comes out. It is taken to a big wax cell and fed with royal jelly. Therefore it develops into a queen.

19. What is the function of the queen bee ?
20. How many fertilized eggs does the queen bee lay every day ?
21. What do the eggs develop into ?
22. From what do drones develop ?
23. What do the drones do with the larva ?

● **Read the data and answer the questions :**
